## Accessories - Special Fittings

### In-line Reducer

(2" NPSF Swivel X 2" NPSM X 3/4" NPTF)

In-line design allows reduction of a 2" water hose to a garden hose fitting.

Application:

- Used as a In-line Reducer
- Attaches to fire hydrant adaptor

Part Number - FP200

### In-line Reducer / 90 degree Vertical Outlet

(2" NPSF Swivel X 2" NPSM X 3/4" NPTF)

- Part Number - FP250 not shown

In-line design allows reduction of a 2" water hose to garden hose fittings or the flexibility of the vertical outlet to be used as a sprinkler head.

Application:

- Used as a In-line Reducer
- Attaches to fire hydrant adaptor
- In-line Sprinkler

Features: (Both)

- High Strength Aluminum Pipe (6061 - T6)
- 2" Brass Female Swivel
- 2" Male Straight Pipe Thread Outlet
- Two - 3/4" NPT Outlets with Brass 3/4" Garden Hose Fittings
- Tig Welded
- Chainable for security

### Tee Junction

(2" NPSF X 2" NPSM)

Simple, but durable, designed to split water source into two different water flow directions.

Application:

- Used as a in-line splitter
- Attaches to fire hydrant adaptor

Features:

- High Strength Aluminum Pipe (6061 - T6)
- Brass Female Swivel
- Two Male Straight Pipe Thread Outlets
- Tig Welded

Part Number - FP300

## Accessories - Special Fittings

### Cross Junction

2" NPSF Swivel X 2" NPSM)

Designed to split a water source into three different water flow directions.

Application:

- Used as a in-line splitter
- Attaches to fire hydrant adaptor

Features:

- High Strength Aluminum Pipe (6061 - T6)
- Brass Female Swivel
- Three Male Straight Pipe Thread Outlet
- Tig Welded

Part Number - FP400

## Accessories - Tools

### Collapsible Hose Reel

Model # HR99

Forms a round coil which can be tied before collapsing. Now, you have hoses coiled for compact storage. All metal construction provides the strength to endure the heavy uses of the industry. Virtually never wear out.

Application:

- Coiling Garden Hoses, Ropes, Electric Drop Cords

Features:

- All metal construction
- Collapsible front for unloading
- Sturdy Stand with 4 bolt pattern
- Coils 100 feet of garden hose easily
- Able to coils many hoses at a time

Benefits:

- Labor saving - quicker than hand coiling
- Safety - no piles of hose laying around

Part Number - PP500099
